Over the past 30 years or so I have traveled to Northwest Ontario Canada from DFW for dozens of fishing trips. While I have never had a bad experience anywhere I have been, I have gone to Nielsen's Fly In on Rowan Lake for the past several years and highly recommend it to anyone looking for a true wilderness adventure along with outstanding fishing.

You won't find a better place to fish, better owners or better accommodations anywhere. 2010 will be my 7th trip to Nielsen's. Generally, I take a group of friends and have a party of 6 to 10 people. Everyone who has gone with me talks about the trip all year.

Since I have made this trip so many times I can recommend you do the following to make your trip easier. Basically, you can leave DFW on Northwest Airlines at 6:00 AM and be fishing by 2:00PM the same day.

- 1) We send all our rods and fishing gear the week before by UPS to Border Boxes in International Falls Mn. 218-283-8666. They charge a very small fee to hold your gear and want you to return and send it back home by UPS using their facility. This makes travel MUCH easier. Carry your reels on board the plane with you, no hooks allowed.
- 2) Fly NW Airlines from DFW to International Falls MN. Watch for sale prices of around \$400.00 round trip.
- 3) Arrange for City Cab (877-664-6222) to pick you up at the International Falls Airport. They will take you across the border (5-10 minutes) to Ft. Francis, Ontario to one of two float planes for very little money. If you want alcohol or snacks, they are happy to stop.
- 4) If you have a party of 4 or under have City Cab take you to Nestor Falls (1 hour drive) and fly with NW Flying. (807-484-2126) Cost is about \$195.00 PP round trip to Nielsen's. If you have a party of 6 have Melaire Flying (807-274-6411) fly you to Nielsen's for about \$230.00 PP. Rusty Myers Flying (866-707-7637) has a float plane that holds 8 for about the same PP price.

If you have any questions about the trip, Nielsen's or the fishing in general please call my cell, 817-313-8440 and I will be happy to answer any questions you have.
